

Foreword

Dr. B.C. Roy Polytechnic, is a confident step in the Institution's vision of shaping the new generation professionals. The 3-year full time Diploma courses aim at grooming up high calibre professionals to be industry ready.

We are well equipped with state-of-the-art academic infrastructure, complemented aptly by the best of teaching talent and industry-trained faculty to offer top-notch learning aids for fostering and encouraging and encourage the quest for knowledge in our students. In order to nurture the creative spirit of the students, we offer limitless opportunities in diverse disciplines, and bring people from varied backgrounds to connect and enrich one another in ways that would benefit the larger world.

We at Dr. B.C. Roy Polytechnic believe in the overall development of our students. So, apart from offering the best in academics, we make sure to include sports, cultural and extra-curricular activities in the curriculum to help students discover their hidden talents and leverage the same when they are ready to take the big leap and enter their job arenas.

It is with deep gratitude, I recollect the contribution made by our very own President, Mr. Dulal Kumar Mitra of Dr. B.C. Roy Engineering College, Durgapur (Society) in the proliferation of Technical and Management education in the hinterland of West Bengal, and was relentless in the pursuit of quality education. Sadly, he had departed for his heavenly abode on 12 th Feb, 2018.

We appreciate receiving full co-operation from guardians, faculty members, staff and students in our endeavour to build professionals in the service of the society and the Nation at large.

Looking forward to welcome you at our campus.

With best wishes.

Tarun Bhattacharya
General Secretary
